

## News Release

### Intellisense Systems Welcomes Two New Members to Its Strategic Advisory Board

**Thomas H. Todd III and Kristin Robertson bring award-winning leadership to Intellisense in an advisory capacity on the company's Strategic Advisory Board.**

**September 19, 2023 – Torrance, CA** – Intellisense Systems, Inc., a leading provider of electronic systems, avionics, and sensors for military and commercial customers, is proud to announce that Thomas H. Todd III and Kristin A. Robertson are joining its Strategic Advisory Board. Intellisense's Strategic Advisory Board brings together a select group of defense industry experts that counsel the company on the challenges facing the industry and where Intellisense can focus its advanced resources. This board has been instrumental to the company's success over the last five years. With decades of experience in program management and acquisition, Todd and Robertson bring award-winning experience and expertise to Intellisense, particularly in military aviation and unmanned systems.

Before retiring from the U.S. Army, Thomas Todd served as Deputy Commanding General of Acquisition and Systems at United States Army Futures Command in Texas. He previously served as the Program executive officer of Aviation at Redstone Arsenal in Alabama. As an army aviator, he deployed in both Operation Enduring Freedom and Operation Iraqi Freedom and was the chief of contracting for Joint Task Force Bravo in support of Hurricane Mitch disaster relief efforts in Central America. He graduated from the Citadel with a degree in business administration and holds Master of Science degrees in contract management and strategic studies from the Florida Institute of Technology and U.S. Air Force Air War College, respectively.

Kristin Robertson is an experienced senior executive in the aerospace, defense, and intelligence sector. Before retiring, she served as President of Space & C2 (Command & Control) for Raytheon Technologies. Prior to this, Robertson served as the Vice President and General Manager of Autonomous Systems at The Boeing Company. She earned a Bachelor of Science degree in electrical engineering from the University of California San Diego and Master of International Business degree from Saint Louis University. Robertson has certifications in lean practices from University of Tennessee, in Program Management from Defense Acquisition University, and completed the Integral Leadership Program at University of Notre Dame. She is also a member of Beta Gamma Sigma National Honor Society and the Society of Women Engineers.

"We are incredibly honored to have these two exceptional leaders in the defense industry join our Strategic Advisory Board," said Frank Willis, President and CEO of Intellisense. "Their past accomplishments demonstrate their invaluable service and capabilities as leaders in defense contracting, and we are excited to hear their perspectives on where Intellisense can add value to our customers."

#### **About Intellisense Systems, Inc.**

[Intellisense Systems](http://www.intellisenseinc.com), Inc. is a leading provider of advanced sensing, processing and display solutions supporting a data continuum from acquisition to visualization. Our hardware and software solutions turn raw data into useful information for improved decision-making and process automation. Our services include research and development, design, systems integration, prototyping, production, testing, field support, and training. Headquartered in the Los Angeles metropolitan area, the company occupies 80,000 square feet within our Torrance campus. Our ISO 9001:2015/AS9100D- and AS9110-certified manufacturing facilities include electronics fabrication, unit qualification testing, and volume production.
